

Prayer Request for Construction of Church Building

Respected friends, Greetings in the name of Jesus Christ. So, with great pleasure we are here to share that when we planted Church in very remote area of Lahore with your support, now we are constructing over first floor for the following purposes:

- Sunday School
- Bible School
- Swing Center
- Computer Education
- Adult Education

As you can see from the pictures that we are done with **skeleton** frame of the building now the only work that is left is of **concrete roofing and finishing work**. Thus, we request you to please join us for this effort because we alone can't handle all the expenses. We need **13000 U.S \$** for all this purpose. It seems huge amount to us but we believe our God is miraculous and with Him nothing is impossible whatever God put in your heart you can bless our church with that amount. We thank you for your generosity in anticipation. We are looking forward to hear from you soon. God bless you.
